

"Pingree has given me countless opportunities to strengthen who I am as a person. It's a place where I can challenge myself academically as well as experiment with new ideas in Improv class. It's a place where I can be my uninhibited self with friends who are as ready to explore new ideas as I am."

Lydia McGinn '18

**350**  
enrollment

**16%**  
students of color

**Over \$3.2 million**

**Pingree**  
SCHOOL

A coeducational independent day school for grades 9-12  
537 Highland Street, S. Hamilton, MA 01982  
[pingree.org](http://pingree.org)

Pingree

**How Far  
Will You Go?**

Welcome to a high school where you can leave labels behind, an independent college preparatory day school like no other, where academic excellence is partnered with a deep sense of community centered on giving you the chance to branch out in ways you've never done before. Here you'll reach higher and stretch farther, expanding your world and defining the interests that make you the multi-faceted individual you can be. At Pingree you'll rise to become a scholar, a civic leader, an athlete, a musician, a writer, a techie, a global citizen—it's all possible and it's all here for you.

**Prepare  
for what's  
Possible**

## How Will You Spend Your Days?

We're a coeducational day school where intellectual risk-taking is the norm, and diverse perspectives, truth, and commitment to one another are the way we work. Classes are challenging, theme-based, interdisciplinary, and always adapting to our changing world.

*"Only at Pingree can a typical day be one during which I discuss the long term implications of US foreign policy in China with a large group of engaged people in my Current Events Club, blast rockets over 1000 feet into the air during AP Physics class, and finish off the day listening to a music concert in the theater."*

Teddy Rosen '16  
Brown University '20

*"I have been so deeply inspired by my teachers that I have fallen in love with the learning process. Through their guidance, I have developed a questioning mind, a creative spirit, and an unswerving commitment to stretching my own understanding."*

Charlotte Reynders '15,  
Princeton University '19

## With Faculty Who Are Advocates First.

At Pingree, faculty are more than teachers. They are mentors, advisors, and coaches, as much a part of the family as the students. Together we are here to support each other and guide you on your path to discovery and understanding of yourself and the world.

## Getting Involved. Getting in the Game.

Every day, Pingree students come together to explore new subjects, discover new interests, and achieve higher levels. So jump into a service learning program, a current affairs club, or an athletics team from soccer to football to ultimate frisbee.

*"Playing on the varsity baseball, soccer, and basketball teams as a freshman was one of the greatest athletic experiences of my life. I grew as an athlete and developed an unbreakable bond with my teammates."*

Jake Spaulding '19

## With Peers Who Motivate You.

Students here are imaginative and compassionate, creative and smart, driven by an energy that makes every day come alive with ideas. Students have performed at Carnegie Hall, lived abroad, played at an Olympic youth soccer training camp, published poetry in national magazines, and competed in VEX Robotics World Championships.

*"Pingree is a second home to me where I can shine inside and outside the classroom and be who I want to be."*

Ahbi Sambangi '18,  
Pingree Scholar
